## Victory in the North con't

**Nicola Woywitka** - Teacher, long time student of the teachings - 25 + years and **our** local expert on Canadian issues...

Will be giving a presentation on the particular issues we face in Canada.

Issues that need to be resolved before the Unity of North America is established in the creation of the City Foursquare.

Extremely important insights to be gleaned for all, to be sure.

### Start out right - every day!

We are very fortunate to have two other great presenters;

#### **V.F. Qigong**

**Lisa Delaney** is going to give us daily lessons. Don't know what that is? Well you'll just have to come by and find out! :)

#### **3 Fold Flame of Relationships**

**Patricia Carlson** will present a workshop on keeping us and our heart flames, together and beautifully balanced.

*Canadian Saints  
and Saints to come*

## Learn a little bit about Canadians - our Culture

Canadians...yes we are just a wee bit different... We are the blue plume of the three fold flame of N.A. and we have the Heart Chakra of the world in Manitoba at Lake Winnipeg.

We are a very diverse country with a very culturally diverse population. And we have a sort of love/hate relationship with that diversity. So much so that to really pin point us and give us a 'label' has become a bit of an issue for some. 'sort of' because we are never really quite sure it seems...we are at times flexible, we are at times adamant

**Canadians - eh!**  
**"yes we are just a wee bit different"**

and we can be very opinionated or not.

Often we are seen as lacking a real sense of identity and 'who we are' as a people and as a country.

We are not a particularly boastful country and we are definitely not into the Hollywood style of marketing campaigns that tell the world of our great-

ness and of our many achievements, through movies or movie stars.

But maybe because of this we are also often over looked as a major player on the world scene, that we are.

At this conference we hope to be able to address some of these issues.

And though we don't anticipate any immediate world changes of enlightenment gained in this area\*, (another rather Canadian trait) we hope you will have gained some insight as to who we are and what we are really about.

(\* though Hollywood does come regularly to Banff we didn't invite them to our conf. this time.)

## For the Kid's\*

We have lots of great stuff for the kids to do as well.

- Stuff that makes them sweat!
- Stuff that makes them tough!
- Stuff that makes them cry!

And that's all before lunch!

Plus lots more....*secret ray stuff*

*Translation - take a hike to the Hot Springs, anchor the blue ray, and work in the kitchen preparing lots of onions! :)*

*Well...we might hold back a just wee bit on the onions though... whoowie stinky.*

**Kid's....**

\* Kid's - For those that don't think it is politically correct to call the 'Youth' the more old fashion word of Kid's.

Check out the personality of a baby goat and prove to me the difference! :)

They 'kids' i.e. baby goats are curious, friendly, fearless, fun loving, affectionate, need to be occasionally restrained and will get your 'goat' every time.

And so the difference is?
